There has been some discussion among the medical fraternity as to the exact cause of the girl's death. Some of the physicians saying the illness was a severe cold that affected the throat, while others claim it to be diphtheria.

## SUGGESTS THAT DOGS BE KILLED IN HUMANE WAY

### A FRIEND OF DUMB ANIMALS SENDS COMMUNICATION TO THE BONANZA.

The Bonanza yesterday received the following communication from a friend of the dumb animals who is desirous of having all dogs captured by the dog catcher and not re-deemed by their owner, killed in a humane way. The letter follows:

"Tonopah Bonanza. "Dear Editor—Many read with interest and sadness this morning the pathetic 'dog story' in your paper. Now, a word in behalf of the homeless animals (many who are not here from choice), but perhaps at one time a pet in some household whose own-

## EASTERNERS ARE OPTIMISTIC OVER NEVADA

### MALCOLM MACDONALD STATES THAT NEVADA MINES ARE ATTRACTING ATTENTION.

Malcolm L. Macdonald, after a several weeks' trip through the east, returned to Tonopah yesterday morning. He states that the financial condition of the eastern money market at the present time is in excellent shape.

"There appears to be plenty of money on hand for speculation," said Mr. Macdonald last evening, and, "as has been stated before, the investing public naturally turn their eyes to the west as a more profitable field for operation. The larger speculators are affected at the present with a sort of a hesitancy owing to the unsettled conditions affected by the tariff measure now before congress for consideration. It is expected that this bill will be settled definitely by the middle of May, and then a flood of money will be turned loose for speculation.

"While the easterners are somewhat loath about investing in stocks, they will respond to any good legitimate mining proposition as has been demonstrated in this section of the country during the last few months. There is an unlimited amount of capital now waiting for investment and this will be placed to the best advantage before the summer is half over.

"Southern Nevada stocks are quite active on the New York Stock exchange, and I was the recipient of numerous inquiries concerning them during my stay in that city. The most conservative of the moneyed men in the east repeatedly told me that the present outlook for Nevada had never appeared better and all seemed well informed as to the conditions of the many camps."

## MACCABEES WILL PRESENT A FANCY DRILL

### LARGE CROWD WILL BE IN ATTENDANCE AT CALICO BALL.

The grand Calico ball that the Ladies of the Maccabees will give on the evening of April 12, is going to be one of the largest attended affairs ever given in this city. Committees have been hard at work for over a month formulating plans for the entertainment of the dancers and will continue with their work until the evening of the dance.

A pleasing feature of the evening will be a fancy drill by the drill team of the Maccabees. In the team there are sixteen ladies and all will be attired in an appropriate calico costume. The drill will be given at the start and will be immediately followed by the grand march. The drill will be the drawing card for a large attendance.

### CAMP OF SPRINGDALE

#### HAS FIRST FUNERAL

Mrs. F. F. Clinkscales of Springdale, recently of Goldfield, died last Thursday and was buried yesterday, the funeral services being conducted by Rev. J. M. Swander of Rhyolite. Mr. Clinkscales, who is employed as an engineer at the Springdale mill, is left with four children to make a home for. He has the sympathy of the community. This is the first interment from Springdale in the new cemetery recently laid out about an equal distant from Pioneer and Springdale. Pioneer had its first burial last week—Rhyolite Bulletin.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.

ers have moved away, leaving them to either find a home or roam the streets. Tomorrow being 'Dog Day', as an evening publication says, Remember and try to impress on the humane people of this vicinity, that often a poor worthless cur has been the means of saving his master, and always proves a faithful friend. We realize there are too many dogs in Tonopah, but it now remains with the county commissioners to see that all dogs not licensed or redeemed are exterminated in as humane a manner as possible. Trusting everyone will interest themselves in this matter.

"I hereby sign myself, "Ever a Friend of Neglected Children and Abused Animals."

## THREE LEASES AT PIONEER HAVE STRUCK ORE

### DR. ALEXANDER ARRIVES FROM SOUTH LAST NIGHT BRINGING THE NEWS.

Dr. D. L. Alexander came up from Pioneer last evening and brings the news of three strikes made by leasers in that camp. The finds were made Tuesday, and as a result the residents of the southern camp are somewhat jubilant over the discoveries.

The Stewart lease, the Jim Dandy lease and the Rogers lease were the fortunate operators to strike the high grade. These three concerns have been steadily sinking for over a month and recently the Rogers and the Jim Dandy ordered hoists.

The Rickard-Garberg lease is obtaining better results as they reach depth and will start using machine drills this morning. The hoist and air compressor will also be started up. The Machinery for the big Pioneer lease is nearly installed and will be ready for use within the next few days.

Five teams are engaged in hauling ore from this lease to the depot at Springdale and each team makes three trips daily carrying eight tons to the load. At this rate they are unable to empty the ore bin at the mine and the work of hoisting is somewhat retarded.

Dr. Alexander states that the camp has never looked better and is firm in his belief that a rush will soon take place as the new strikes have demonstrated that ore exists throughout the district. He will return to the south either today or tomorrow.

## MEETS DEATH BY FALLING DOWN DEEP SHAFT

### FRED KELLY, FORMER RESIDENT OF CANDELERIA, KILLED AT GREENWATER.

Mrs. Fred Corkill, wife of Superintendent Corkill of the West End, yesterday received a letter from her son, Fred, who is connected with the Lila C. Borax mine at Barstow, California, containing the news of the death of Fred Kelly, who was killed by falling about 1000 feet in the Queen No. 2 shaft of the Death Valley-Greewater Mining company. The dead miner was an old resident of Candelaria, and has many friends in this vicinity. He was employed by Cutting and Edwards in their mercantile store here (now the Nyc Mercantile company) during the Pioneer days. The deceased was an exemplary young man and the sole support of a widowed mother, residing in Oakland. The body was buried at Greewater. The unfortunate young man was born and reared in Silver City, this state.

## LIFE SENTENCE MUST BE SERVED BY JACKMAN

Albert Jackman was denied his freedom by the supreme court Monday when that forum denied the application for a writ of habeas corpus, made by the attorney for Jackman, Judge Harry Morehouse. Jackman is serving a life sentence for the murder of John Moritz in Goldfield. He appealed his case upon a peculiar point at law. Judge Langan, before whom Jackman was tried in the district court of Esmeralda county, left Esmeralda county during the trial of the case to hold court in another county of the same judicial district. Judge Morehouse, consul for Jackman, appeals on the ground that the trial being interrupted by the absence from the county, Jackman was in jeopardy twice, which is unconstitutional. The appeal is not yet decided.

Henry Weber, under sentence for embezzlement from Esmeralda county, now out on an appeal bond in the sum of \$250,000, was heard Tuesday in the supreme court. Weber was convicted of some irregularities in relation to stocks of mining companies in Goldfield.
